Contents

Bathroom Cabinets & Mirrors

Roper Rhodes cabinets & mirrors are beautifully crafted and come with a host of clever features such as wireless technology or built-in DAB/FM radio and multi-media options, heated demister pads, recharging sockets, integrated lighting and no touch infrared on/off sensors to control the lighting.

Take a look through our collection for yourself...

04

Bathroom Cabinets

Whether you find illuminated cabinets a turn on (or off!), need a single or double door cabinet in aluminium or wood, our fantastic range is bound to have something that's just right.

The Cabinet Collection

Brighten up your bathroom
with one of our stunning
mirrored cabinets

Our beautifully built cabinets are a great alternative to a mirror when you need additional storage space. And who doesn't? Packed full of useful features, a Roper Rhodes cabinet more than deserves a place in your bathroom.

Look out for these great features...

Infrared on/off switch

Most of our illuminated cabinets are turned on and off using a no touch infrared switch. See pages 30 - 32 for location of sensor for each cabinet. **Important:** Please remember, when mounting cabinets with infrared switches, the sensor must be at least 150mm from an adjacent wall or obstruction to ensure the switch can function properly.

LED lighting

We use the latest LED technology in many of our cabinets to great effect. This not only looks stunning but provides a bright, practical task light with energy saving benefits.

Heated demister pad

Fever and Touch cabinets have a heated demister pad in the door. Within two to three minutes the pad heats the mirror to a few degrees above room temperature, keeping the central area of the mirror door clear.

Recharging sockets

Many of our cabinets include a recharging socket, suitable for electric shavers and toothbrushes, conveniently hidden away inside the cabinet.

IP44

All our aluminium cabinets comply with electrical equipment (safety) regulations and are IP44 rated, making them suitable for use within zone 2 of the bathroom environment.

Roper Rhodes cabinets come with many other useful features too. Refer to the individual product page and range selector on pages 30 - 32 to find out more.

Compose cabinet

Cabinets with *Bluetooth*® Wireless Technology

Listen to your music play list or internet radio by pairing your smart phone or tablet to the Tune or Compose cabinet

Bluetooth®

- * Integrate music seamlessly into your bathroom with an LED illuminated cabinet with *Bluetooth*® wireless technology
- * Superior integrated stereo speakers
- * Pair your smartphone, tablet or laptop to the cabinet to play and control your music choices. Alternatively, within range, you can use your device to control your music remotely from outside the bathroom. (Note: dependant on individual installation/ room configuration)
- * Bright, practical, energy saving LED lighting
- * Infrared on/off sensor controls for lighting
- * Recharging socket, operated by rocker switch
- * Double sided mirror doors
- * Soft close doors for quiet, controlled closure
- * 2 adjustable glass shelves
- * IP44 rated - for safe use in the bathroom

Compose cabinet with *Bluetooth*® wireless technology

The Mirror Collection

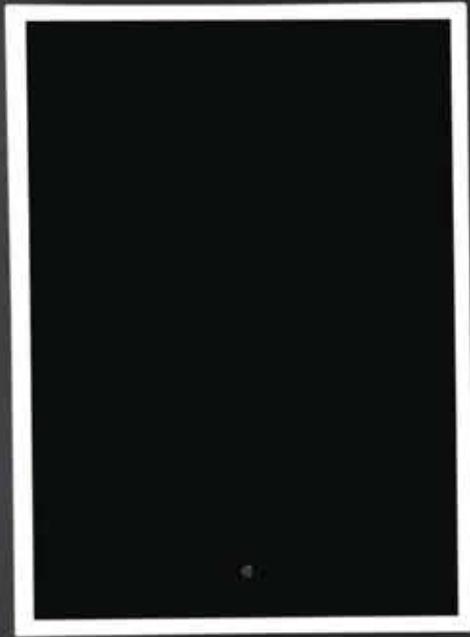

Get ready in style
in front of one of our
striking mirrors

When it comes to mirrors, Roper Rhodes really does have the fairest of them all. Our collection of illuminated mirrors are beautifully designed and come with a host of clever features such as *Bluetooth*[®] wireless technology or built-in DAB/FM radio and multi-media options, heated demister pads, recharging sockets and no touch infrared on/off switching.

Look out for these great features...

Infrared on/off switch

Most of our illuminated mirrors are turned on and off using a no touch infrared switch. See pages 56 - 57 for the location of sensor on each mirror. Some of our mirrors also feature an intelligent touch sensor switch to control the lighting. **Important:** Please remember, when mounting mirrors with infrared switches, the sensor must be at least 150mm from an adjacent wall or obstruction to ensure the switch can function properly.

LED lighting

We use the latest LED technology in many of our mirrors to great effect. This not only looks stunning but provides a bright, practical task light with energy saving benefits.

Heated demister pad

Most of our mirrors are fitted with heated demister pads. Within two to three minutes the pad heats the mirror to a few degrees above room temperature, keeping the central area of the mirror clear.

Recharging sockets

A number of our mirrors include a recharging socket, suitable for electric shavers and toothbrushes conveniently hidden away in the body of the mirror.

IP44

Our mirrors comply with electrical equipment (safety) regulations and are IP44 rated, making them suitable for use within zone 2 of the bathroom environment.

Roper Rhodes mirrors come with many other useful features too. Refer to the individual product page and range selector on pages 56 - 57 to find out more.

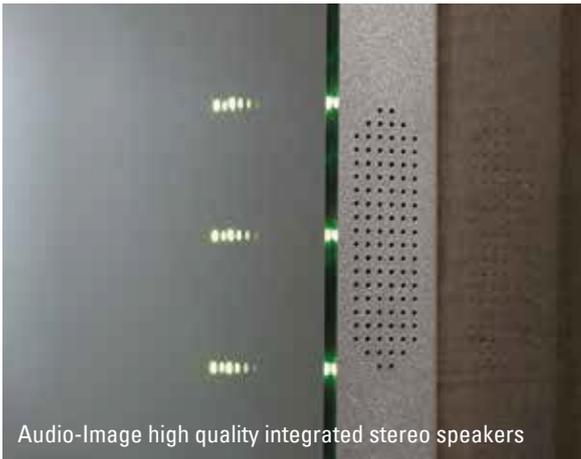

Audio-Image DAB radio mirror

Audio-Image DAB Radio Mirror

Technical Information

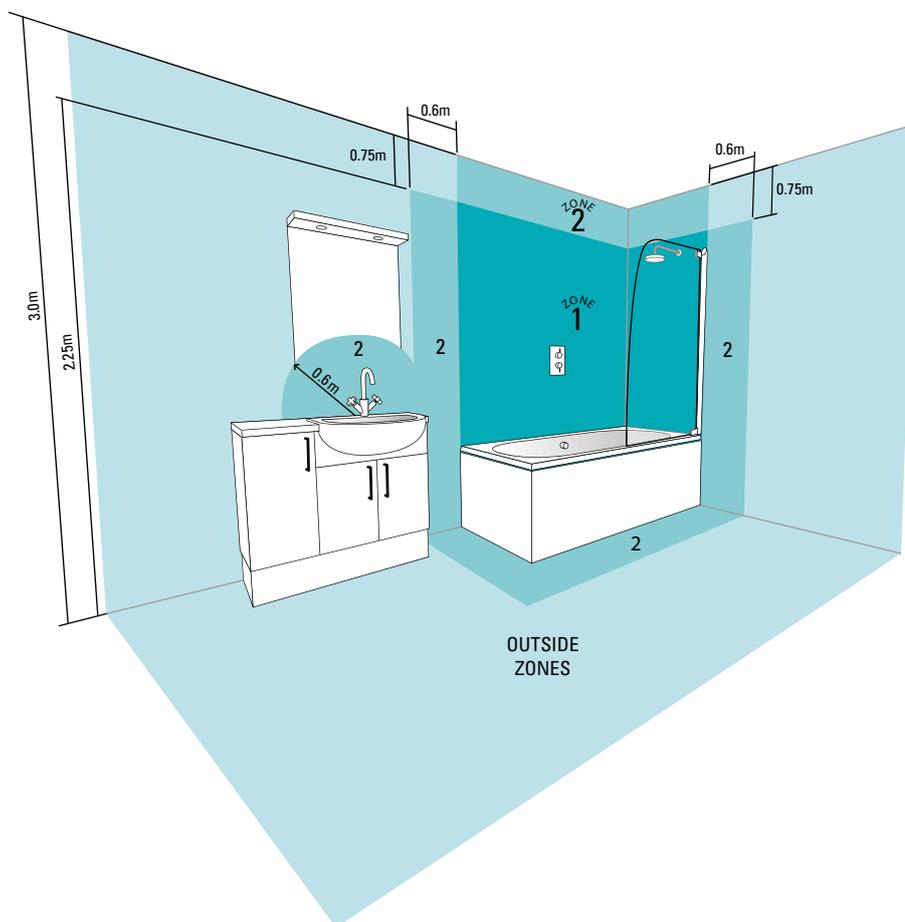

Safety zones and electrical information for your bathroom

Zones for electrical equipment in close proximity to bath and showers

Roper Rhodes illuminated mirrors and aluminium cabinets have been independently tested for compliance with electrical equipment (safety) regulations. All illuminated mirrors and illuminated aluminium cabinets are IP44 water resistance rated and are suitable for use in zone 2 and outside zones in the bathroom.

Important notes

Illuminated mirrors and cabinets must be mounted so that the sensor switch is a minimum of 150mm from an adjacent wall or obstruction to ensure function of the sensor switch.

Electrical fittings in this zone require separated extra low voltage and a minimum rating of IP44 (splash-proof).

Electrical fittings in this zone require a minimum rating of IP44 (splash-proof).

Electrical fittings in this zone require a minimum rating of IP20.

Customer Service & Aftercare

It's not just our cabinets and mirrors we're proud of, our excellent reputation for customer service is important to us too.

As one of the UK's largest suppliers of bathroom products we set very high standards in design, manufacture and service. We also invest heavily in product improvement and innovation. By choosing Roper Rhodes, you can be confident that your product is of unrivalled quality.

How to contact us

If you do need to contact us, our in-house customer service team has a wealth of knowledge about our products.

Email: sales@roperrhodes.co.uk
Telephone: 01225 303 900

Lines open

Monday to Thursday: 9:00am - 5:30pm
Friday: 9:00am - 5:00pm

Replacement parts

We carry extensive stocks of replacement parts and are normally able to dispatch spares within 24 hours of your request. Attention is drawn to the policy of replacing any damaged part with a spare part where possible. Complete exchanges will only be made if damage is extensive.

Product specification

Roper Rhodes Ltd reserves the right to amend the specification of its products at any time if an opportunity to improve the product occurs. All dimensions are approximate and are quoted within reasonable tolerances.

Pricing

All prices quoted are inclusive of Value Added Tax, which will be charged at the rate applicable on the date your product is despatched. The prices charged will be those ruling at the date of despatch and Roper Rhodes cannot be held responsible for any errors or omissions in this brochure.
